

Install EarthCam on FireStick for Awesome Worldwide Webcams

By [Patrick](#), September 9, 2023

What is Earthcam?

The EarthCam App uses a network of privately owned and operated live-streaming webcams worldwide to provide virtual access to some of the most iconic places. The app allows people to experience popular and exciting locations that they would otherwise be unable to visit.

You can watch landmarks, historical spots, and even scenic landscapes worldwide.

It is an official Amazon App Store App that you can easily install on your FireStick. EarthCam gathers the best outdoor gigapixel panorama camera systems from some of the most interesting and unusual locations. Then, it integrates them into a single App to provide you with one-click access to these locations.

Is the EarthCam App safe and legal? How to install the EarthCam App on FireStick? How to use the EarthCam on FireStick? We will answer these questions and more in this article.

Is it Safe and legal?

As we mentioned, the EarthCam App is the official Application. You can install it directly from the Amazon Store. You don't need to sideload or jailbreak the app to install it on your FireStick.

Therefore, there is no risk whatsoever. In addition, the app is entirely legal. Any app you install from the official stores is legal.

Features of the App

The EarthCam app lets you watch live streams from worldwide locations.

The app even provides high-textured 4K resolution videos for many locations (such as Times Square). In addition, the app displays the location, weather, and time zones of every site. Moreover, in some of the videos, there is an option to include background music to give you a heightened sense of reality.

The EarthCam App has a user-friendly interface, and every FireStick user can easily navigate through multiple features of the app.

Installing the EarthCam App on your FireStick allows you to watch mesmerizing sunsets and the beautiful scenic beauty of beaches live in high resolution.

You can drag the frequently watched webcams to a separate favorite folder.
