

## Milford Haven EarthCam clocks up over a million views

By [Tom Sinclair](#), July 11, 2024

A WEB CAM located at the top of the Old Post Office on Hamilton Terrace in Milford Haven has become one of the most popular on EarthCam, a website which showcases interesting views throughout the world.

Clocking up over a million hits in less than a year, the cam shows the view from the top of the building Pembrokeshire Herald's offices out over Milford Marina and the Milford Haven waterway.

The cam has a rare 24-frames a second constant live stream, unlike most on the site which have a slow refresh rate, and operates constantly in high-definition video.

To view the cam click the link here:
